

Sketchbook

This is all private work, created on my many drawing trips or when ever my time allows for it.

Every scene, person or object I drew live, using a variety of techniques and tools ranging from pencil and fine liner to watercolour and nib pen.

Drawing from life creates a special bond between the object and artist. One glance at the sketch is enough to remind me of smells and sounds and even conversations I had while working on the sketch. Few things can rival the amazing feeling of live drawing.
